Unique Retinol Formulations Maximize Results

## **BRIGHTENEX™**

Skin Brightener & Correcting Crème  
Non-Hydroquinone

Bioengineered to target all three stages of skin discoloration through a patented, bio-vectored, microsphere delivery system. It is formulated to even skin color and tone, and recommended as a first course in treating hyperpigmentation.

### **Synergistic Retinol Formulation**

A blend of potent retinol (1.0%), inhibitors and antioxidants are released to rapidly brighten and even skin tone quality. Additionally, this comprehensive multi-action formulation minimizes skin redness caused by environmental factors and helps maintain an even and restored skin tone.

### **BRIGHTENEX™ Multi-Action System**

- Vitamin A and ascorbic acid-2 glucoside for even skin tone
- Bio-active levels of vitamins E and C, and stachys officinalis antioxidants
- Multistage glutathione, soy isoflavones, and N-acetyl glucosamine melanin inhibitor system
- Retinol (1.0%) microencapsulation in an oleosomes delivery system

(75mL, 2.5 fl. oz.)

## RETAMAX™

### Active Vitamin A Micro Emulsion

Utilizing an innovative micro emulsion technology, this potent retinol (1.0%), blended with plant stem cell antioxidants and biomimetic proteins, helps reverse the signs of aging and aids in the prevention of future damage.

### Stimulating Collagen Formation and Skin Barrier Function

RETAMAX™ aids in skin rejuvenation by triggering the natural formation of collagen and encouraging the restoration of the skin barrier function by up-regulating the production of hyaluronic acid, the skin's most vital natural hydrating factor.

### Antioxidant Response

This biocellular antioxidant system serves to block free-radical damage, helps protect vulnerable cellular DNA, and addresses the root cause initiators of future skin aging. Optimizing inflammation management and anti-glycation irritation, RETAMAX™ helps ensure maintenance of the new, healthy skin state by defending against inflammatory-initiated skin damage.

### RETAMAX™ Micro Emulsion System

- High-potency vitamin A stimulates the skin's natural rebuilding process
- Antioxidant and anti-inflammatory action with vitamins C and E, and buddleja plant stem cells
- Biomimetic protein activation for skin regeneration
- Micro emulsion technology supports rapid delivery of key ingredients

(75mL, 2.5 fl. oz.)
